DETAILED ACTION

1. Receipt is acknowledged of the amendment filed on March 31, 2005, which has been fully considered in this action.

Continued Examination Under 37 CFR 1.114

2. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on September 30, 2004 has been entered.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 2-8 are rejected under 35 U.S.C. 102(b) as being anticipated by WO 96/33775.

WO 96/33775 discloses a device for extinguishing fires using a bursting disk as claimed in the instant invention, note extinguishing nozzle inserts, col. 4, lines 10-16; supply line 21/24/26/27; fluid supply device 28; and a bursting disk 23 within the fluid connection end of the supply line.

Response to Arguments

5. Applicant's arguments filed March 31, 2005 have been fully considered but they are not persuasive.

6. In response to applicant's argument that the references fail to show certain features of applicant's invention, it is noted that the features upon which applicant relies (i.e., preventing extinguishing fluid to flow into the extinguishing nozzle-head in the rest state or the bursting disk provides complete sealing of the extinguishing nozzle-head from the supply line) are not recited in the rejected claims. Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993).

Conclusion

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 3752

however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
